

CAPABILITY STATEMENT: All Around Solar Screenings

A Specialized Division of All Around Tree Care Services LLC

CORE COMPETENCIES

- **Vegetative Buffer Installation:** Rapid-deployment planting of hundreds of species-specific trees and shrubs per site.
- **Visual Impact Mitigation:** Expert execution of site-specific screening plans to meet municipal and community requirements.
- **Arborist-Led Oversight:** Precision species selection and planting depth management to ensure long-term survival and permit bond release.

KEY DIFFERENTIATORS

- **Low-Impact Precision Equipment:** We exclusively utilize Avant Articulated Loaders. This provides significantly lower ground pressure than skid steers, protecting sensitive underground conduits and preventing soil compaction.
- **Owner-Operated Quality Control:** Every project is managed on-site by 1 of the owners, ensuring immediate decision-making and 100% safety compliance.
- **Advanced Bio-Security Protocols:** We strictly sanitize all machinery between sites to prevent the spread of soil-borne diseases, protecting the long-term health of your asset.
- **Survival Warranty:** We provide dedicated aftercare and survival monitoring to ensure compliance throughout the establishment period.

PERFORMANCE HIGHLIGHTS

- **Radiance Solar (Clinton County Project):** Successfully executed a 335-unit vegetative buffer installation with zero site impact and 97% survival rate to date.
- **Sun 1 Solar:** Professional execution of visual screening and vegetative buffer management for utility-scale development.
- **Solar Infrastructure Inc:** Specialized planting and site restoration services ensuring long-term visual compliance.

COMPANY DATA

- **Headquarters:** Mascoutah, IL (Serving IL, MO, and the Midwest)
- **Primary NAICS:** 561730 (Landscaping & Solar Buffer Installation)
- **Secondary NAICS:** 115310 (Forestry Support), 238910 (Site Preparation)
- **Insurance:** Fully Insured & Workers Comp | 100% Safety Compliance Record
